

Horizon Elite™ ice machines  
with customer preferred Chewblet® ice

**The best  
just got  
better**

## Your customers love Chewblet ice!

- 70% of your customers prefer Chewblet ice over cube ice\*
  - Easier to chew
  - Better size and shape
- Up to 30% will buy more fountain drinks\* when they have Chewblet ice

## You'll love the increased profits!

- Increases sales of high margin fountain drinks
- Superior drink displacement lowers drink costs

Plus, you get the same drink and coldplate performance as cube ice.

\* Consumer study conducted by independent agency Roper ASW.

## Two ice sizes available

Follett offers the original Chewblet ice (approximately 1.00" (2.54 cm) long) and Micro Chewblet™ ice (approximately 3/8" (0.95 cm) long).

## Chewblet ice

## Micro Chewblet ice

"I've been going to (my local drive-thru restaurant) on my lunch hour almost every day for the past year just to get Chewblet ice"

"I fell in love with Chewblet ice! It's chewable, tastes great and makes my drink fun"

"My family loves the ice so much that I bring home a bag and keep it in the freezer for the kids"

Horizon Elite RIDE® (remote ice delivery equipment) automatically delivers ice through a tube up to 75 feet (23 m) away from the dispenser

- Improve beverage dispenser cleaning
  - Get full access to dispenser ice storage area without costly removal of the ice machine
  - Cleaning and sanitizing dispenser is faster and more cost effective
- Enhance your customer experience
  - Less heat and noise from fountain area
  - More attractive fountain area with ice machine out of view
  - Eliminates disruptions, no waiting while employees fill dispenser
- Free up valuable merchandising space

Cleaning and sanitizing is so much easier and less expensive without an ice machine on top!

Horizon Elite top-mount ice machines install on top of a bin or dispenser

### Designed for reliability

- No semiannual bearing inspection required
- Auger loads are contained in the evaporator and not transferred to the gearmotor, promoting long life

### Lowest cost to own and operate

- Reduce water consumption by over 35% compared to most cube-type ice machines
- Reduce costs to clean ice machine
  - Clean ice machine in half the time with semi-automatic cleaning and sanitizing
  - Just add cleaning/sanitizing solution and machine automatically cleans and rinses itself
- Exceptional warranty
  - 3 year parts and labor on total machine
  - 5 year parts on compressor

#### Horizon Elite evaporator

Operates continuously to reduce water and electrical usage

#### Cube evaporator

The ice making system reverses to melt ice and release cubes. Chilled water is then flushed down the drain, wasting water and energy

Horizon Elite™ is a revolutionary design that protects against scale to substantially reduce life cycle cost.

Water with high levels of dissolved minerals, also called Total Dissolved Solids (TDS), cause scale buildup, clogged drain lines and soft ice that can jam dispensers.

With Horizon Elite, fresh inlet water forces dissolved solids to the reservoir where they are isolated and expelled in low volume flushes.

### Lower cost of ownership with Horizon Elite

- Significantly reduces or eliminates the need to descale the ice machine between normal sanitizing intervals
- Reduces or eliminates the need for reverse osmosis or other expensive scale control in scale-prone waters
- Produces purer ice to provide trouble-free dispensing

# Horizon Elite with Ice Manager™ diverter valve system fills two dispense points with one ice machine.

Manages the ice so you don't have to

- Ice delivery based on demand delivers ice when you want it, where you want it
- Fewer ice machines to purchase and maintain
- Use your production capacity more efficiently

## Capacities to meet your needs

Chewblet ice machine	Capacity	Self flush cycle	Condensing	Compatible with Ice Manager *	Available ice type	Maximum RIDE distance
Maestro Plus™ 425 Series	Up to 425 lb (193 kg) per day	Standard	Self-contained air- and water-cooled	NO	Chewblet	20 ft (6 m)
Horizon Elite 710 Series	Up to 759 lb (345 kg) per day	Enhanced scale inhibiting	Self-contained air-cooled	NO	Chewblet, Micro Chewblet	75 ft (23 m)
Horizon Elite 1010 Series	Up to 1036 lb (471 kg) per day	Enhanced scale inhibiting	Self-contained air- and water-cooled; Remote air-cooled	YES	Chewblet, Micro Chewblet	75 ft (23 m)
Horizon Elite 1410 Series	Up to 1450 lb (658 kg) per day	Enhanced scale inhibiting	Self-contained air- and water-cooled; Remote air-cooled	YES	Chewblet, Micro Chewblet	75 ft (23 m)
Horizon Elite 1810 Series	Up to 1784 lb (810 kg) per day	Enhanced scale inhibiting	Remote air-cooled	YES	Chewblet, Micro Chewblet	75 ft (23 m)
Horizon Elite 2110 Series	Up to 2039 lb (925 kg) per day	Enhanced scale inhibiting	Remote air-cooled	YES	Chewblet, Micro Chewblet	75 ft (23 m)
